24TH-Series Threadless Hanger

QUICK. CLEAN. EFFICIENT.

The 24TH-series threadless hanger from Dixon® Sanitary introduces a new level of efficiency and hygienic design to the hanger market.

This tube hanger incorporates a snap-secure latch system that simplifies and significantly reduces installation times by eliminating the standard thread design. The self-contained inserts guide and protect your tubing.

Applications
- Mounted processing lines
- Skid building

Sizes
- 1”, 1-1/2”, 2”, 3”, 4”

Features
- Partial open position allows for adjustment of tubing prior to final lock in
- Threadless design and bacteria-resistant architecture
- The snap-in clip assembly makes this hanger easy to assemble
  - Optionally compatible with our standard sleeve (clips removed)
- Save time on installation with no tools needed
- Meets MSS SP-58 load ratings

Specifications
- Mounting: compatible with up to 3/4” diameter rod
- Materials of construction
  - Top and bottom halves and latch: 304 stainless steel
  - Hook: 304 stainless steel spring wire
  - Clips: polypropylene
  - Sleeve: polypropylene
